## Liga ng mga Barangay

The Liga ng mga Barangay, unbeknownst to many, is the largest organization among local government associations whose members come from the grassroots. The Liga ng mga Barangay represents a membership of 41, 939 barangays. Considering the nature of the organization, the Liga ng mga Barangay is deemed a very important and effective force that can advance the interests of the barangays, the most basic political unit of governance.

Contingency Planning for Emergencies A Manual for Local Government Units  
This manual is intended to assist disaster management practitioners and organizations to use contingency planning to address the typical issues of time constraint, enormous needs and complex coordination that hamper effective emergency and disaster management. This manual provides recommendations on how to engage in the contingency planning process in order to develop common strategies and approaches to potential emergencies, as well as to translate the deliberations and results of this process in the form of contingency plans.
